Massachusetts Avenue: Paving Notice (Schouler Court to Mill Street)

Dear Resident/Business Owner:

This is an important update informing you that the Town's Contractor, D&R Paving will be performing road work on Massachusetts Avenue (Schouler Court to Mill St.). Road milling and additional preparation will begin on or about August 7, 2013. The milling will take place along this section of Mass. Ave., will last approximately three (3) days and be performed between 9:00 a.m and 3:00 p.m. Additional preparation work will be required at various locations along the route during day-time hours and final paving will be performed at night. The total duration for the project is anticipated to be three to four (3-4) weeks. An additional future notice will be provided detailing the specific date and time for the night paving operations, which is expected to be performed in one or two nights.

Given the potential disruptions and public and work environment safety issues involved it was decided to perform this work at night to reduce these issues and expedite the project to the maximum extent possible. This change will allow for increased safety for both the contractors and police details managing the traffic by shifting the work from heavy commuter traffic hours.

The road will remain open but travel will be re-directed by police officers to alternate lanes as necessary to coordinate with the progress of the paving operations

No Parking Zones will be in effect along Massachusetts Avenue and police detail officers will be available to provide assistance with traffic management and to enforce parking restrictions.

All scheduling details are weather permitting and may be altered due to encountered site conditions. If you have any questions about the project, please contact the Engineering Office at (781) 316-3323 or (781) 316-3320.
